TRUSTED SPECIALIST

## ATEX CONFINED SPACE LIGHTING SYSTEM

The ATEX Confined Space Lighting System has developed a formidable reputation as a highly reliable lighting system, even in the most extreme environments. It has redefined confined space lighting, allowing operators to create good lighting levels inside tanks and vessels, improving safety, working conditions and efficiency.

- ATEX approved for
  - Zones 1 and 2 (Gas) and
  - Zones 21 and 22 (Dust)
- Exceptional durability
- Highly versatile
- Compact and lightweight
- Waterproof and dustproof
- Safe low voltage
- Wide range of kit types

### OVERVIEW

The ATEX Confined Space Lighting System is a complete confined space lighting system that has been developed in conjunction with operators. The system provides superb light output for a wide range of tasks and situations.

The kit has become an indispensable tool for professionals throughout the oil, gas, chemical and utilities industries.

Our established reputation for quality, reliability and service is second to none. We do not let our clients down - the MSIS ESR team is available 24/7 to ensure we provide a rapid response service, leaving our clients confident in MSIS to consistently meet their operational objectives.

### CONTACT US

Available for rental (short and long term) or purchase, contact our specialist technical support team to discuss your specific requirements [Info@msisgroup.com](mailto:Info@msisgroup.com)

### APPLICATIONS INCLUDE:

- Oil refineries
- Chemical plants
- Offshore platforms
- Confined spaces
- Vessel entries
- Tank cleaning and painting
- Utilities

### COMPLETE WITH:

- Configuration Transformer
- Four lights
- Cable Length (lights) 20m (or as required)
- Cable Length (transformer) 15m (or as required)

### SPECIFICATION:

- Ingress Protection - IP65/67
- Operating Temperature - -20°C to +40°C
- Transformer Rating 400VA
- Transformer Output 4 x 24V 3 pin socket outlets
- Input Voltage Options 110VAC, 230VAC
