TRUSTED SPECIALIST

RIGVAC UNIT

The Rigvac Unit which has been designed by our in-house design team for offshore use, is portable and lightweight, and is the only certified unit on the market for use in hazardous areas that can handle heavier fluids and larger solids. The air driven unit will recover a variety of fluids in drilling and environmental applications, without loss of suction.

- CE marked and suitable for use in ATEX Category II Zone 1 areas
- NORSOK compliant
- The unit is small and manoeuvrable which eliminates the Requirement of additional lifting equipment
- Can be used in confined spaces, with an extendable hose without loss of suction
- The pump unit is housed in a robust, wheeled, stainless steel frame
- Automatic continuous suction/discharge cycle
- Capable of handling liquids with solids content of up to 15%

OVERVIEW

At the heart of the unit is an air operated heavy duty pump, which has been designed for constant use and with minimum moving parts to ensure ease of on-site maintenance. With its 2" suction tube, the Rigvac Unit is more versatile for clean-up operations.

With an established reputation for quality, reliability and service, we do not let our clients down. Our ESR team is available 24/7 to ensure the provision of a rapid response service, ensuring that we consistently meet our clients' operational objectives.

CONTACT US

Our extensive range of equipment is available for rental or purchase. Please contact our specialist technical support team at ESRInfo@msisgroup.com to discuss your specific requirements.

COMPLETE WITH:

- 25 ft of 2" anti-static red stripe suction hose and fittings
- 25 ft of 2" anti-static red stripe discharge hose and fittings
- 50 ft of 1" anti-static air supply hose and fittings
- Stainless steel suction tube
- 2 x black plastic gulper nozzles
- Copy of operating manual
- Certification package

SPECIFICATION:

- Dimensions (L x W x H): 79 x 47 x 124 cm
- Weight: 82 kg
- Air consumption: requires a supply of air between 90 - 110 psi (6.2 - 7.5 bar) @ 60 SCFM
- Will vertically lift 25 ft of fresh water
