## SV60 – V GUZZLA

The SV60 - V Guzzla™ is a small, portable one man vacuum loading, pressure discharge pump. With the capability and performance of machines many times its size - recovering and transferring up to 10,000 L/h of almost any flowable material. The unit is exclusively certified for use in hazardous areas and is only available to market through MSIS.

- CE marked and suitable for use in ATEX Category II Zone 1 areas
- NORSOK compliant
- Fully portable
- Size and weight that allows access into difficult to reach areas
- Long distance discharge capabilities
- No moving parts in contact with product
- High solids content transfer (80% +)
- Automatic continuous suction/discharge cycle

### OVERVIEW

The SV60 - V Guzzla™ generates over 23" hg of vacuum combined with high airflow which allows the unit to transfer materials ranging from oil sludge through to wet or dry sand. The SV60 - V Guzzla™ can handle solids up to 50 mm (2"). Applications include spillage recovery and transfer, sump cleaning and desilting, pneumatic excavation, high solids content transfer, oil based mud transfer and pit cleaning, bentonite, sand and drill cuttings.

With an established reputation for quality, reliability and service, we do not let our clients down.

Our ESR team is available 24/7 to ensure the provision of a rapid response service, ensuring that we consistently meet our clients' operational objectives.

### CONTACT US

Our extensive range of equipment is available for rental or purchase. Please contact our specialist technical support team at [ESRInfo@msisgroup.com](mailto:ESRInfo@msisgroup.com) to discuss your specific requirements.

### APPLICATIONS INCLUDE:

- Spillage recovery and transfer
- Sump cleaning and desilting
- Pneumatic excavation
- High solids content transfer
- Oil based mud transfer and pit cleaning
- Bentonite, sand, and drill cuttings

### COMPLETE WITH:

- 16 ft of 3" anti-static suction hose and fittings
- 32 ft of 3" anti-static discharge hose and fittings
- 50 ft of 1" anti-static air supply hose and fittings
- Stainless steel pick up nozzle
- Copy of operating manual
- Certification package
- Additional hoses, floor Hoover attachment and accessories available on request

### SPECIFICATION:

- Dimensions (L x W x H): 90 x 70 x 110 cm
- Weight: 198 kg
- Air consumption: requires supply of air between 85 - 110 psi (5.9 - 7.5 bar) @ 150 SCFM
