TRUSTED SPECIALIST

SLUDGE GULPER

The Sludge Gulper which has been designed by our in-house design team for offshore use, is portable and lightweight, and is the only certified unit on the market for use in hazardous areas that can handle heavier fluids and larger solids. The air driven unit will recover a variety of fluids in drilling and environmental applications, without loss of suction.

- CE marked and suitable for use in ATEX Category II Zone 1 areas
- NORSOK compliant
- Capable of handling liquids with solids content of up to 15%
- Minimum moving parts ensure ease of on-site maintenance
- Automatic continuous suction/discharge cycle
- The unit is small and portable and can be used in confined spaces

PRODUCT INFORMATION

OVERVIEW

The suction capability of this unit allows the recovery or transfer of heavy fluids with significant solids content. It has proven itself in numerous North Sea and overseas locations when used on its own or as part of our equipment packages. The simple design of this unit allows for straightforward maintenance.

With an established reputation for quality, reliability and service, we do not let our clients down. Our ESR team is available 24/7 to ensure the provision of a rapid response service, ensuring that we consistently meet our clients' operational objectives.

CONTACT US

Our extensive range of equipment is available for rental or purchase. Please contact our specialist technical support team at ESRInfo@msisgroup.com to discuss your specific requirements.

COMPLETE WITH:

- 25 ft of 2" anti-static red stripe suction hose and fittings
- 25 ft of 2" anti-static red stripe discharge hose and fittings
- 50 ft of 1" anti-static air supply hose and fittings
- Copy of operating manual
- Certification package

SPECIFICATION:

- Dimensions (L x W x H): 71 x 32 x 60 cm
- Weight: 58 kg
- Air consumption: requires a supply of air between 90 - 110 psi (6.2 - 7.5 bar) @ 60 SCFM
- Will vertically lift 25 ft of fresh water
